Introduction

In this dealing with problems worksheet, students practice common phrases for identifying and clarifying everyday problems.

Procedure

Give each student a copy of the two-page worksheet.

First, students discuss two questions about everyday problems in pairs.

Students then complete phrases that identify and clarify problems with words from a box and then indicate the function of each phrase.

Exercise B - Answer key

- | | |

| 1. understand, CP | 6. mean, CP |
| 2. main, IP | 7. wrong, IP |
| 3. what, CP | 8. clarify, CP |
| 4. explain, CP | 9. facing, IP |
| 5. address, IP | 10. issue, IP |

Next, students match sentence halves to create statements related to identifying and clarifying problems.

Exercise C - Answer key

1. e 2. i 3. h 4. a 5. f 6. b 7. d 8. g 9. j 10. c

After that, students underline the correct words to complete sentences and then match each statement identifying a problem to its corresponding clarification.

Exercise D - Answer key

| 2. concern, e | b. mean |
| 3. address, b | c. saying |
| 4. wrong, a | d. understand |

Students then use the language from the worksheet to write sentences identifying topic-related problems, e.g. for the topic 'home', students could write *'The challenge I need to address is finding an apartment that is affordable but not too far from work.'*

Finally, students take turns reading each sentence to a partner, who clarifies the issue, e.g. *'So, what you're saying is that there aren't many affordable places near your office.'*
